

CENOVITI INTERNATIONAL

The first and sole international network for training
research in oenology and viticulture

ÆNOVITI INTERNATIONAL Network

Pierre-Louis TEISSEDER, Professor of Ænology and ÆNOVITI coordinator.

Launched in 2010 and coordinated by the University of Bordeaux - Institut des Sciences de la Vigne et du Vin (ISVV), ÆNOVITI is the first and sole international network in œnology and viticulture.

The ÆNOVITI International network includes **more than 60 partners worldwide**. All of them are **recognized for their excellence** in the field of œnology and viticulture.

The network also involves many partners from the industry and the socioeconomic world. Beyond their financial support, they provide their expertise to pursue top-quality R&D and to offer employment opportunities to young graduates.

The network is **organized around an executive committee** consisting of :

- Members of the Network,
- Representatives of the major programs,
- The Fondation Bordeaux Université,
- The ÆNOVITI Coordination Office

All partners gather in 10 transversal and thematic work groups to develop research and cooperation in specific points of interest. The mobility of its staff and students.

WORK GROUPS

1. Extended Viticulture
2. Extended Ænology
3. Climate Change
4. Industrial Transfer
5. Wine Management and Tourism
6. Wine and Health
7. International Strategic funding
8. Digitalization / Robotization
9. Fundraising sponsors / patronage
10. Talents / Careers : young researchers

2010 : From Ænodoc to Ænoviti International

60⁺ Academic, Industrial and Research Center par-
Born from Ænodoc, Ænoviti partners are gathered in 10 Work Groups
and also involved in other international projects.

Ænodoc

15 Academic partners
Offering different training programmes
at Masters and PhD levels.

**Ænodoc
PhD Programme**

3 Master's degree
Vinifera
Vintage
Wintour

BAG Alliance

SWIB Network

Ænobio

Vitaglobal

**French German
Graduate School**

**Post-doctoral
research mobility**

Rise vWISE

The innovative approach of the network is based on :

- The mobility of its staff and students,
- The exchange of experience and good practices between the relevant subjects,
- The building of a common core curriculum in education and training.

Every year, a **scientific Symposium** is organized where partners are invited in one partner's country to discuss the current challenges and opportunities for the œnology and viticulture sector.

The **General Assembly** of the network is organised the following day to exchange on the past year achievements and discuss the new objectives of the next year. Then, partners gather in work groups to share their achievements and develop collaborations in the field.

Regular **Online Events** are organized throughout the year.

œNOVITI's main activities

RESEARCH

Providing opportunities for young and advanced researchers.

French German Graduate School / Doctorate programme - Supports research projects on the Climate Change Impact on the Sustainability of Special Crops and their Products.

œNODOC / Doctorate programme - Aimed at addressing the current challenges in œnology and viticulture.

BAG Alliance - Research Alliance gathering the Universities of Geisenheim, Adelaide and Bordeaux.

SWIB Network - Network gathering the Universities of Stellenbosch and Bordeaux, Winetech and Inno'vin.

Post-doctoral research mobility - Students who completed their PhD with an academic partner can plan a stay with a partner institution in order to foster the exchange of experience and good practices.

TRAINING

Coordinated by œNOVITI partners.

Vintage International Master - Enabling students to acquire dual technical and marketing skills at the international level.

Vinifera Euromaster - Granted by six European universities, this programme offers career opportunities in research, wine-production and vineyard management.

Wintour Master - European Joint Master on Wine Tourism Innovation.

COOPERATION

The members of the œNOVITI INTERNATIONAL network submit projects to the European Union on a regular basis, in particular as part of the Marie-Sklodowska-Curie Actions of the Horizon Europe programme and Erasmus +.

œnobio (2018 - 2021) - Erasmus + Strategic Partnership in organic vine and wine (for advanced Bachelor/ Master/PhD students.)

Vitaglobal (2018 - 2021) - Erasmus + Capacity Building to contribute to local development by building joint study programmes in agricultural science and specifically, vitiviniculture.

RISE vWISE (2020 - 2025) - Exchange programme to progress towards vine sustainability and adaptation to climate change

Partners' testimonies

Dr. Álvaro S. GONZALEZ, Research and Development Manager
at the Center for Research and Innovation, Viña Concha y Toro (Chile)

The vision of the Center for Research and Innovation - Viña Concha y Toro is clear, to promote applied research, technology development and knowledge transfer, covering global challenges and opportunities presented by the wine industry : strengthening the plant materials, water resources and climate change, quality assessment of grapes and wines, smart wine industry and new product design. CENOVITI International allows us to interact with researchers and global players, strengthening the chances of international collaboration.

Dr. Chantal MAURY, Resarcher and Lecturer of viticulture and œnology -
Head of the Master's degree International Vintage
at Ecole Supérieure d'Agricultures d'Angers (France)

The Ecole Supérieure d'Agriculture of Angers (ESA, France) prepares students to become technicians, sales representatives, engineers, managers and researchers, in particular in the wine industry and business. Strongly open to the world, ESA has created many degrees with international mobilities, some even have double or dual degrees with worldwide universities. Through the CENOVITI International Network, ESA is proud to contribute to share knowledge and methodologies with partners, and to expand the students and staff's international mobilities.

Pr. Enrico PETERLUNGER, Professor of viticulture
at Università degli studi di Udine (Italy)

CENOVITI International is a powerful tool to boost doctorate programs of the partner institutions. University of Udine from the beginning is dedicated to foster cooperation initiatives at PhD level, including common research projects. This cooperation is very fruitful, resulting in a win-win process, and it receives a good evaluation both at international level and from Italian national PhD rating institution. Furthermore, the relationship in the consortium with industry and private sector is crucial to promote collaboration and dialogue to find effective solutions to many scientific and technical problems of grape and wine production.

Pr. Tohru OKUDA Director and Professor
at the Institute of Enology and Viticulture, University of Yamanashi (Japan)

The history of Japanese winemaking dates back at least 150 years ago, and like Japanese culture, has developed in a unique way. Thanks to the relentless efforts of our predecessors, Japanese wines have improved and reached high quality recently. Wine has a global perspective. Based on our culture, we would like to develop wines that have a distinctive character in global perspective. For the introverted Japanese, this is the first step outside our islands. CENOVITI International gives us a global perspective. Several common issues need to be resolved, and many hints are available.

Become a partner of the network

The aim of CENOVITI International network is to boost **exchanges of know-how and expertise** between wine-makers, academics and industrial partners.

The network provides its members with a **high level of visibility** on the international scene by enabling them to **maximize their opportunities** in terms of joint training and research projects.

The members of the network constitute work groups in order to complete collaborative projects regarding scientific and technical research, but also to foster training, exchanges of staff and students, and organization of conferences.

By becoming a member of CENOVITI International, you will contribute to the development of :

- The **largest international network** dedicated to research and training in œnology and viticulture,
- **Research** in this sector, in order to meet its new challenges collectively,
- **Training programmes of excellence** at the international level.

Besides, all CENOVITI partners can benefit from the following :

- **Free access to the annual Symposium and the General Assembly,**
- A **newsletter** and the **intranet space** to know the current activities of the network,
- **Free access to the results of all work groups and to the network's publishings,**
- **Travel expenses partially covered** to attend network events.

ACADEMIC PARTNER

Be a part of knowledge transmission for students, PhD students and professors.

Usual membership duration :
5 years (renewable)

Membership fee : 1000€/year

RESEARCH CENTER PARTNER

Be a part of the development of new technologies, innovations and get world wine recognition and visibility of your actions.

Usual membership duration :
5 years (renewable)

Membership fee : 1500€/year

INDUSTRIAL PARTNER

Get access to the latest research results in vine and wine sciences, and connect with a broad international community of experts and specialized scientists.

Usual membership duration :
5 years (renewable)

Membership fee : 1500€/year

ÆNOVITI's sponsorships

Fondation Bordeaux Université is a **nonprofit organization** raising funds to support the development of the whole campus in Bordeaux such as the University of Bordeaux. It is an original interface between academic and socioeconomic actors. Through new forms of cooperation, Fondation Bordeaux Université **aims at supporting innovation, training and research excellence** for the benefit of its territory. Depending on the wishes of the sponsors, the Fondation Bordeaux Université ensures the visibility or anonymity of the allocated donations as well as a complete transparency in the use of funds.

Contact : fondation@fbxu.org

The partnership with IdEx Bordeaux (Initiative d'Excellence)

IdEx Bordeaux is an **investment program designed to support the transformation and development of the university of Bordeaux** through the creation of clusters of excellence in higher education and scientific research. In the framework of ÆNOVITI International, IdEx helps financing :

- Doctoral thesis for eighteen months (for the students of ÆNODOC partner universities),
- Travels for teachers and researchers,
- Colloquia and conferences.

The first sponsor of ÆNOVITI International is Château Pichon Baron.

This sponsor made a major contribution to the launch of the network and in particular of the ÆNODOC programme.

The donation of 120 k€ finances the mobility of the numerous partners within the network. The Château also provides an input of its competences through its active participation in the network's actions.

In 2018 ÆNOVITI received the award of the best project in the field of Internationalization and Territory by the Fondation Bordeaux Université.

Christian SEELY, Château Pichon Baron (Managing Director AXA Millésimes).

We support the ÆNODOC programme designed to meet the current challenges in oenology and viticulture. It is an ambitious project with an international and multi-disciplinary reach. The issues addressed include, among others, research, health and the environment, topics which concern all of us. We are particularly happy within AXA Millésimes to contribute to the network.

Become a network's sponsor

The CENOVTI International network is actively looking for sponsors.

Donations ensure the long life of this network of excellence and its actions. All the current challenges make our work and research essential nowadays. We have to think about the best way to take care of our vines, to produce good wines with all these changes and to distribute them all over the world in an ethical way.

By donating to the CENOVTI International Network, you will **contribute to the development of research, training and cooperation in the wine sector**, and be an **actor in the advancement of the field**.

Becoming a sponsor of the network will give you **international visibility and recognition**, and access to a variety of professionals and scientists specialized in their field. It will also enable you to develop projects that are meaningful to you, **by collaborating with our partners all over the world**. As a member of CENOVTI International, you also have a **free access to our annual Symposium and General Assembly**.

There are different kinds of partnership to be invented and built together. We welcome all suggestions and look forward to receive yours !

GOLD GRAPE SPONSOR

Be a part of one or several structural actions developed by an open or specific donation in :

1. Training
2. Research
3. Distribution

Such as :

- The organisation of major events,
- The launching of new partnerships through the financing of mobility, and more.

Member for 3 years

Subscription : 30K€/year
over 3 years

SILVER GRAPE SPONSOR

Be a part of one-off action by an open or specific donation in :

1. Training
2. Research
3. Distribution

Such as :

- Research or training prize,
- A local event,
- The mobility of researchers or students,
- The purchase of research equipment, and more.

Member for 1 year

Subscription : 10K€

COPPER GRAPE SPONSOR

Be a part of our shared foundation in other ways :

- Hosting members during travels,
- Sample donations like wines, plants, etc.
- Visits of your facilities, and more.

Member depending on the duration
of your support

Subscription : Skills or Materials

Tax benefit for companies settled in France : corporate donors can benefit from a tax reduction equal to 60%, up to a maximum of 0.5% or 10 000 € of their annual turnover. If they exceed this limit, you can carry over the excess for the payment of taxes due in the next five financial years.

Tax benefit for companies established in a third country: depending of the origin of the donor, there are some legal arrangements between the Tax Authorities to recognize transnational donations. If you are interested, please contact us in order to assess the criteria to be fulfilled : fondation@fbxu.org
