# PROVISIONAL PROGRAMME: SYMPOSIUM & GA 2024

**TUESDAY 14TH MAY 2024 - SYMPOSIUM**

**Water from Vines to Wines:  
viticultural, microbiological, technological, composition,  
including grapes withering**

TITLE	SPEAKER	INSTITUTION	COUNTRY
<b>SESSION 1: Water in viticulture: climate change, irrigation, biological changes with water, incidence on the berry</b>			
<i>Early response to water stress in rootstock/scion grapevine combinations: a comparative analysis via plant phenotyping platform and plant-to-atmosphere gas exchange.</i>	Claudio Lovisolo	Università degli Studi di Torino	Italy
<i>Coping with drought stress in german steep slope viticulture</i>	Matthias Friedel	Hochschule Geisenheim University	Germany
<i>Photosynthetic functioning and water use efficiency among Muscadinia x Vitis hybrids are differently drought-regulated</i>	Laurent Torregrosa	L'Institut Agro Montpellier	France
<i>Integrated irrigation management system based on advanced micrometeorology, vineyard IOT, and grape quality tier allocation: Concha y Toro's experience</i>	Sebastian Vargas	Concha y Toro	Chile
<b>SESSION 2 : Water, soil and microbiology</b>			
<i>High-precision Modelling Of Slope Stability And Water Flow Provides Adaptation To Climate Change Impacts On Soil Erosion And Landslides In Mountain Viticulture</i>	Antonio Graça	Sogrape	Portugal
<i>How soil management impacts vineyard performance, grape quality and biodiversity. Case-studies of Douro Demarcated Region vineyards</i>	Cristina Carlos	UTAD	Portugal

**TUESDAY 14TH MAY 2024 - SYMPOSIUM**

## Water from Vines to Wines: viticultural, microbiological, technological, composition, including grapes withering

TITLE	SPEAKER	INSTITUTION	COUNTRY
<b>SESSION 3: Water and oenotourism</b>			
<i>The impact of the irrigation and the vine-wine systems in the landscape and heritage for the enotourism</i>	Alejandro Gennari	Universidad Nacional de Cuyo	Argentina
<i>Sustainable Wine Tourism: Exploring Innovative Water Management Practices in Wineries in Baja California, México</i>	Diana Celaya	Cetys Universidad	Mexico
<i>Climate change and water scarcity: challenges of (wine) tourism in Catalonia</i>	Òscar Saladié Borraz	Universitat Rovira i Virgili	Spain
<b>SESSION 4: Water and wine technology</b>			
<i>Exploring Microalgae-Based Approaches for Winery Wastewater Polishing: A Preliminary Study</i>	Rita Fragoso	Instituto Superior de Agronomia	Portugal
<i>Oenological process and water use</i>	Pierre-Louis Teissedre, Monika Christmann	Université de Bordeaux	France
<i>Physical determinants of vineyard ET and issues related to water budget and climate change</i>	Andrea Pitacco	Università degli studi di Padova	Italy
<b>SESSION 5: Water in grapes and wine composition</b>			
<i>Harvest timing and postharvest dehydration duration affect grape and wine quality: A three-vintage study on Nebbiolo-based Sforzato di Valtellina DOCG wine production</i>	Simone Giacosa	Università degli Studi di Torino	Italy
<i>Postharvest water loss of wine grapes: technological, physiological remarks and non-destructive monitoring</i>	Andrea Bellincontro	Università degli Studi della Tuscia	Italy
<i>Grapes Withering - Appassimento</i>	Andrea Dal Cin	Masi Agricola	Italy

## WEDNESDAY 15TH MAY 2024 - GA & WORK GROUP

### **OENOVITI General Assembly**

This annual meeting brings together members of the network, to discuss and make decisions on key matters. The typical program includes items such as assessment of the network, financial reports, presentation of new partners and discussions on major policies or strategic directions. It serves as a platform for members to voice opinions, ask questions, and participate in the democratic decision-making process of the network.

### **Work Groups Meetings**

These meetings offer a valuable platform for discussing both the ongoing and forthcoming projects within the various work groups. Collaboratively, we consider areas for enhancement and explore potential new initiatives.
